

F2 Student-Institution File  
(attended and applied-to as of F2)

---

Variable name: STU\_ID

Record #1, Position:1 - 6, Format: N6.

Variable label: Student ID

Variable description:

- ID of the student linked to the institution.

Note: The following reserve codes are used throughout the ECB. This description is added to the first variable of each section to help users understand the meaning of each reserve code.

-1: "Don't know" represents respondents who indicated that they didn't know the answer to the question.

-2: "Refused" represents respondents who indicated that they refused to answer the question

-3: "Item legitimate skip/NA" is filled for questions that are not administered based on routing logic; i.e., the items are not applicable based on responses to prior questions.

-4: "Nonrespondent" is filled for all variables across the entire questionnaire when a sample member did not respond to the questionnaire.

-5: "Out of range" represents questionnaire respondents who reported values that are out of range.

-6: "Multiple response" represents hard copy questionnaire respondents who reported more than one response for an item that requires only one response.

-7: "Partial interview-breakoff" is filled for questions that are not answered because the respondent does not wish to continue the interview or they have run out of time. This also includes particular items that are not included on an abbreviated version questionnaire.

-8: "Survey component legitimate skip/NA" is filled for all items within a survey component for sample members who were not administered that component by design for one of the following reasons: 1) the component was not administered based on their status (e.g., transfer students did not receive certain items on the in-school survey), 2) the sample member was not a part of the study at the time of administration (e.g., first follow-up freshened sample members were by definition not eligible for the base-year survey), or 3) the sample member was not capable of completing the survey component (e.g., students who were questionnaire-ineligible due to a language barrier or disability at the time of the survey).

-9: "Missing" is filled for questions that are not answered when the routing suggests that a response should have been provided.

Variable name: F2IORDER

Record #1, Position:7 - 8, Format: N2.

Variable label: F2 Institution file order number

Variable description:

- This variable indicates the order in which the postsecondary institution(s) associated with each respondent appear on the institution file. F2IORDER is intended to identify and link to institutions of particular interest; for example, the first "real" institution attended (see F2PS1) and the 2006 postsecondary institution (see F2PS2006). For any one respondent, institution(s) are ordered from first to last as follows: institution(s) which the respondent attended, sorted chronologically from earliest start date to latest start date, followed by institution(s) which the respondent applied to but did not attend, listed in order in which they were provided by the respondent. Thus, for respondents with postsecondary attendance, the chronologically-first attended institution will always appear first (F2IORDER=1).

Applies to: All postsecondary institutions on the ELS F2 Institution File.

Variable name: F2IIPED

Record #1, Position:9 - 14, Format: N6.

Variable label: IPEDS code of postsecondary institution

Variable description:

- Postsecondary institution code, based on the Integrated Postsecondary Education Data System (IPEDS); IPEDS codes were assigned primarily by the survey instrument assisted coder, and secondarily by upcoding activities. "Unknown schools" refer to postsecondary institutions reported by the respondent for which they did not provide the institution's name; these institutions may, however, have other associated information (e.g., sector, level).

Note: A given respondent may have multiple records on the F2 Institution File with F2IIPED values of 999996, 999997, or 999998; all other F2IIPED values will be associated with no more than one record for any given respondent.

Applies to: All postsecondary institutions on the ELS F2 Institution File.

Variable name: F2ISELC

Record #1, Position:23 - 24, Format: N2.

Variable label: Institutional selectivity

Variable description:

- Measure of the associated institution's admissions selectivity based on 2005 Carnegie classifications. Institutions identified as 4-year schools via IPEDS data are further classified as highly selective, moderately selective, or inclusive according to the Carnegie selectivity measure; institutions identified as 4-year schools via IPEDS data with unknown Carnegie selectivity (or Carnegie-classified as something other than a 4-year institution) are coded in F2ISELC as "selectivity not classified, 4-year institution". Institutions identified as 2-year or less-than-2-year via IPEDS data are coded as such in F2ISELC. Original Carnegie classification based on 25th percentile scores of entering freshmen on the SAT and/or ACT (using data from IPEDS and the College Board). The "inclusive", "moderately selective", and "highly selective" categories correspond to 25th percentile ACT-equivalent scores of less than 18, 18-21, and greater than 21, respectively. Based on the Integrated Postsecondary Education Data System (IPEDS) variable "CCUGPROF" (Carnegie Classification 2005: Undergraduate Profile).

Variable name: F2IAPPLY

Record #1, Position:51 - 52, Format: N2.

Variable label: Whether applied in first round of applications

Variable description:

- Indicates whether the respondent applied for admission to the associated postsecondary institution.

Note: The "first round of applications" refers to when the respondent first applied to a postsecondary institution, as reported in F2A02 (i.e., while still in high school or sometime after high school).

The number of "applied-to" schools appearing on the F2 Institution File for any given respondent may be less than, but not more than, the value stored in F2NAPPLY; for example, when a respondent reports (in F2B03) having applied to 10 schools but is only able to provide information for 8 of those schools.

Record #1, Position:67 - 68, Format: N2.

Variable label: First period of attendance at this postsecondary institution

Variable description:

- What month and year did you first start attending [school name]?

Note: F2ISTART indicates the earliest period of enrollment at a particular institution; the student-level variable F2PSSTRT indicates the respondent's earliest period of enrollment across all attended institutions.

Second follow-up data collection spanned from January through August 2006; information on the respondent's 2006 postsecondary enrollment is therefore dependent on the date of their F2 participation. As a result, "2006" has been constructed as a single time period rather than using the cut-points employed for 2004 and 2005.

Variable name: F2IPSQ

Record #1, Position:71 - 72, Format: N2.

Variable label: Questionable postsecondary enrollment flag

Variable description:

- This variable indicates that, according to the enrollment dates provided by the respondent, attendance at the associated postsecondary institution began, and if applicable, ended prior to high school completion/exit (F2HSCPDR is used as the high school completion/exit date for respondents who have received a high school credential; F2HSLVDR is used for respondents who have not received a high school credential). This enrollment information must be considered at best incomplete because, despite being prompted in the F2 interview to only report postsecondary enrollment subsequent to F2HSCPDR (or, where applicable, F2HSLVDR), some enrollment prior to high school completion/exit was reported. This variable contains the enrollment while in high school that the respondent reported.
